IDENTIFIERS	*Illinois

ABSTRACT

This twentieth edition of the Directory of Approved Programs has been updated to reflect the numerous changes in each recognized institution's approved program listing. The directory lists state approved programs for the preparation of education personnel in Illinois. Addresses, telephone numbers, and contact persons for each institution are listed. The data are provided in 11 sections: (1) alphabetical listing of recognized institutions and approved programs with listing of specific curriculum areas; (2) approved early childhood education certificate programs; (3) approved elementary (K-9) certificate programs; (4) approved secondary (6-12) certificate program areas; (5) approved special (K-12) certificate program areas; (6) approved special education areas for the special (K-12) certificate; (7) approved school service personnel certificate programs; (8) approved administrative credit certificate programs; (9) approved transitional bilingual certificate programs; (10) geographic location of Illinois institutions recognized for teacher education; and (11) special programs offering alternatives for individuals with degrees. (JLS)

WORLD-CLASS EDUCATION FOR THE 21ST CENTURY: THE CHALLENGE AND THE VISION

VISION STATEMENT

As we approach the 21st century, there is broad-based agreement that the education we provide for our children will determine America's future role in the community of nations, the character of our society, and the quality of our individual lives. Thus, education has become the most important responsibility of our nation and our state, with an imperative for bold new directions and renewed commitments.

To meet the global challenges this responsibility presents, the State of Illinois will provide the leadership necessary to guarantee access to a system of high-quality public education. This system will develop in all students the knowledge, understanding, skills and attitudes that will enable all residents to lead productive and fulfilling lives in a complex and changing society. All students will be provided appropriate and adequate opportunities to learn to:

- communicate with words, numbers,visual images, symbols and sounds;
- think analytically and creatively, and be able to solve problems to meet personal, social and academic needs;
- develop physical and emotional well-being;
- contribute as citizens in local, state, national and global communities;
- work independently and cooperatively in groups;
- understand and appreciate the diversity of our world and the interdependence of its peoples;
- contribute to the economic well-being of society; and
- continue to learn throughout their lives.

MISSION STATEMENT

The mission of the State Board of Education is to enable all Illinois students to become confident, self-sufficient and productive citizens. To this end, the Board establishes policies that systematically support an everchanging, lifelong learning process. Furthermore, it acts as an advocate, provider, and broker of community, family and state resources and services that ensure the accomplishment of the State's Goals for Learning.

ILLINOIS GOALS

1. Each Illinois public school student will exhibit mastery of the learner outcomes defined in the State Goals for Learning, demonstrate the ability to solve problems and perform tasks requiring higher-order thinking skills, and be prepared to succeed in our society and the workforce. All people of Illinois will be literate, life-long learners who are knowledgeable about the rights and responsibilities of citizenship and able to contribute to the economic and social well-being of our society.

2. All Illinois public school students will attend schools which are safe and free of violence and drugs. Such schools will provide an environment which is conducive to learning and promotes respect among all students and staff.

3. All Illinois public school students will be served by an education delivery system which focuses on student outcomes; promotes maximum flexibility for shared decision making at the local level; and has an accountability process which includes rewards, interventions and assistance for schools.

4. All Illinois public school students will have access to schools and classrooms with highly qualified and effective professionals who ensure that students achieve high levels of learning.

5. All Illinois public school students will attend schools which effectively use technology as a resource to support student learning and improve operational efficiency.

6. All Illinois public school students will attend schools which actively develop the support, involvement and commitment of parents and their community through the establishment of partnerships and/or linkages to ensure the success of all students.

7. Every Illinois public school student will attend a school that is supported by an adequate, equitable, stable and predictable system of finance.

8. Each child in Illinois will receive the support services necessary to enter the public school system ready to learn and progress successfully through school. The public school system will serve as a leader in collaborative efforts among private and public agencies so that comprehensive and coordinated health, human and social services reach children and their families.

Developed by citizens of Illinois through a process supported by the Governor, the Illinois State Board of Education and the Illinois Business Roundtable. Adopted as a centerpiece for school improvement efforts, revised February 1996. Printed by the authority of the State of Illinois.

FOREWORD

This twentieth edition of the *Directory of Approved Programs* has been updated to reflect the numerous changes in each recognized institution's approved program listing. Several new programs have been approved since the last publication date, and institutions have requested that some programs be deleted from their listings. Changes in personnel and institutional data have also been noted.

A few areas have been reorganized to provide more information and clarification, as the intent of the publication is to further communication and provide assistance in guidance and educational development.

To be of service to all those interested in the preparation of educational personnel, this publication depends upon the accuracy of the listings. Notification concerning any changes in programs, data, or personnel, as well as any comments and suggestions for future revisions, will be appreciated.

Joseph A. Spagnolo
State Superintendent of Education
